Headline: March 2022 Spotlight - MJ Renovation

Polk & Osceola County, FL - Back in 2019, the owners of MJ Renovation started a side business buying, fixing, and selling houses. During this time, the two were both working full time in their professions, but friends and family members continued asking for their home repair services. That is when they discovered there was a niche for a home repair business among their own friends and family members.

After a financial analysis, the owners of MJ Renovation realized it was a good opportunity to start an official business. In 2019, MJ Renovation was officially created. It is a company that provides renovation services, such as flooring installation, painting, kitchen and bathroom remodeling, and more. These services help to transform homes in our community, while offering reasonable prices and the same high-quality service as the big companies. MJ Renovation started out as a part time company, working only on weekends and holidays. But demand was massive, so they dove into the opportunity to become a full time business.

MJ Renovation's goal is to make your house a home! Visit their website at www.mjrenov.com. You can also contact them at 407-310-1975 or sales@mjrenov.com.
